

CLIPPER & TRIMMER MOTOR TYPES

MAGNETIC MOTORS

MOTOR FEATURES

- Reliable power and high blade speed result in smooth cuts
- Less moving parts make these simple, reliable and the longest lasting of all motors

USES / HAIR TYPES

- Light textures of hair will feed and cut well

PIVOT MOTORS

- Lower blade speed than magnetic motors but twice as powerful
- Whisper quiet, cool running, and long lasting

- Good choice for students or less experienced cutters
- Ideal for cutting thick or heavy hair

ROTARY MOTORS

- Equal amount of power and blade speed
- Balanced power, speed and size make tool extremely versatile

- Perfect for all hair types and heavy duty cutting

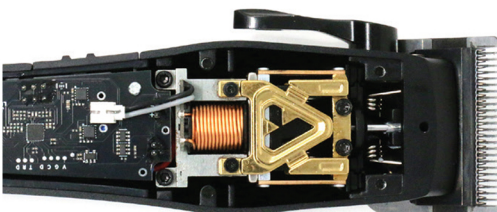

BRUSHLESS ROTARY MOTORS

- Deliver more power and torque
- Last longer and weigh less than a traditional rotary motor tool

- Perfect for all hair types

VECTOR MOTORS

- Deliver consistent, high-speed cutting performance
- Maintains power under load for consistent cutting speed

- Great for ultra-smooth fades and bulk removal
- Cuts evenly, even through dense hair
